Light Bulb Manufacturers: Custom-designs for Most Applications

Between the professional services at LightSources and our outstanding group of affiliates, we are the premier light bulb manufacturers that OEMs consistently turn to for solutions to their custom lighting needs. We pride ourselves on the ability to take virtually any prototype right through to a successful finished product to accommodate a wide variety of needs of our clients. LightSources' specialty lighting meets the most demanding requirements of virtually any industrial application and provides clients the greatest flexibility in customized solutions and turnaround.

Additionally LightSources' companies continue to improve and expand upon our operational capabilities. One example is our commitment to getting customized lighting to our customers quickly and in the most cost-efficient manner. Both LightSources and our affiliate, LightTech, offer reduced transportation costs and provide a range of shipping options that includes road, rail, sea or air. We ship to more than 60 countries across 6 continents and have the expertise to handle the entire transport and custom's documentation process required when importing and exporting to other countries.

Please contact us for more information regarding any of our premier light bulb manufacturers. Our unmatched ability to flexibly supply specialized lighting on demand sets us apart from our competitors.

LightSources and our affiliated companies, LCD Lighting, Voltarc along with strategic partners LightTech, and Cerlux represent the leading high-tech designers and manufacturers in the lamp industry today. Our specialty products are used world-wide in a multitude of applications and industries such as our avionic display backlighting that is part of the National Defense and US Space Programs. Each company in the LightSources group operates with state-of-the art specialty lamp production equipment to comprise the world's leading light bulb manufacturers.
