OEMs' Top Light Bulb Suppliers – Standard and Customized

LCD Lighting is our leading light bulb supplier and manufacturer of high-quality standard and custom fluorescent lamps that utilize the most advanced coating and processing technologies. We have the ability to meet the individual application needs of OEMs by providing standard and custom straight lamps and specially-designed bent lamps. In addition as global leaders in the [UVC germicidal lamp industry](#), LightTech and Light Sources offer high-quality standard and custom products that require reduced lead times and unmatched innovation.

Examples of our customized products include [UVC quartz and soft glass germicidal lamps](#), LPUVC amalgam lamps, [HID-MPUV curing lamps](#), specialty fluorescent UVA and UVB lamps, low pressure tanning lamps and high pressure facial tanning lamps. We also expertly manufacture high CRI specialty color long-life fluorescent lamps, medical lamps, aquarium lamps, horticulture lamps, and cinematography lamps as well as other custom specialty fluorescent lamps.

The LightSources group has the expertise and state-of-the-art resources to design, engineer and test as well as to deliver custom light bulbs that meet the most stringent requirements. For more than three decades, we have offered OEMs of any size cutting-edge design, engineering and manufacturing of a variety of UV and specialty fluorescent lamps for virtually all industrial applications.

LightSources and our affiliated companies, LCD Lighting, Voltarc along with strategic partners LightTech, and Cerlux represent the leading high-tech designers and manufacturers in the lamp industry today. Our specialty products are used world-wide in a multitude of applications and industries such as our avionic display backlighting that is part of the National Defense and US Space Program.
