The Industry's Top UV Lamp Manufacturers

As the world's top UV lamp manufacturer, we are committed to engineering the highest quality of standard, specialty and proprietary lamps that meet the requirements of our clients. We accomplish this by operating state-of-the-art manufacturing facilities on two continents that keep production running smoothly and benefit from the combined efforts in research and product development and supply chain activities. Our clients benefit by getting a flexible supply and the best turnaround services compared to any other manufacturer worldwide.

Furthermore, we strive to balance concerns for public safety and environmental protection with the ongoing need for effective disinfection. The ecologically-sound technologies that LightSources and LightTech continue to develop offer critical solutions for the current and future health of the earth's indispensable resources, such as clean water and air.

To best serve the global markets, we have manufacturing, sales, and distribution locations in North America, Europe and a sales office in China. Our worldwide presence provides a synergistic relationship to meet individual needs of the many economic regions of our clients. Regardless of whether you are a large OEM or a small start-up, we have the resources and expertise to help.

LightSources and our affiliated companies, LCD Lighting, Voltarc along with strategic partners LightTech, and Cerlux are the leading high-tech designers and manufacturers in the lamp industry today. In addition to our high-quality standard lamps and components, we specialize in customizing the best solution and technology to meet our partner's unique needs. Please contact us to learn more about the world's top UV lamp manufacturers.
