Aristo Fluorescent Lamps & Lamp Systems

Since 1939 Aristo has designed and manufactured of a variety of fluorescent, neon, cold and hot cathode lamps as well as complete lamp systems. Most notably the cold light head and photographic light boxes for the photographic market.

As of the acquisition of Aristo into the Light Sources family in 2009, Aristo will be continuing the replacement lamps for many of the more popular items. As these become available, they will be added to the Aristo product list.
