## **Leading UV Curing Lamps Suppliers – Innovative Solutions**

As leading UV curing lamp suppliers, we offer OEMs a wide range of standard UV lamps as well as fully customized bulbs. Our low pressure UV curing lamps are used to cure inks, resins, and adhesives. Medium pressure lamps are used in curing applications such as adhesive bonds, coatings, engraving and plating resist, inks, varnishes, lacquers and decorative glazes.

With the most up-to-date manufacturing facilities and proprietary technologies, LightTech and Light Sources create patent-protected, OEM-oriented solutions. Our system-level designs take into account ambient operating conditions, UVC watts, operating life, and other essential performance criteria. For all customized lamps, our engineers and designers will work closely with OEMs of any size to take a prototype right through to the finished product.

Customer satisfaction is extremely important to us as we recognize that our success depends on the success of our clients. We are committed to providing unmatched flexibility and manufacturing turnaround and to continue to provide our clients with state-of-the-art technology as well as exceptional service and support. Please contact us for more information on our comprehensive products and services.

**LightSources and our affiliated companies, LCD Lighting, Voltarc along with strategic partners LightTech, and Cerlux represent the leading high-tech designers and manufacturers in the lamp industry today. Our products are used world-wide in a multitude of applications and industries such as our UV germicidal lamps that offer patent-protected, OEM-oriented solutions. We invite you to learn more about our specialized products from the leading UV curing lamps suppliers.**
