

High Output Lamps

LightSources, Inc. and LightTech Lamp Technology Ltd are pleased to offer our clients top of the line High Output (HO) germicidal lamps. These lamps yield twice the amount of ultraviolet (UV) output than standard lamps of the same length. All common lamp sizes are available for purchase at LightSources and LightTech.

HO lamps are of tremendous benefit to system designers in that they reduce the number of lamps required for a system to function. It is thereby possible for designers to reduce the footprint of a system or, alternatively, to increase the efficiency and capacity of an existing system while maintaining the same footprint.

Our HO lamps provide the following benefits:

- **DOUBLE THE UV OUTPUT OF STANDARD LAMPS**
- **REDUCED SYSTEM FOOTPRINT**
- **INCREASED EFFICIENCY AND CAPACITY**
- **COST SAVINGS THROUGH REDUCTION OF LAMP USAGE**

The LightSources/ LightTech Difference

The combined strengths of LightSources in the United States and LightTech in Europe make our companies global leaders in the germicidal lamp industry. We provide our clients in the original equipment manufacturer (OEM) market with standard and customized lamps. In addition to offering all standard lamp sizes, LightSources and LightTech can custom design, engineer, and manufacture the ideal lamps to suit our clients' unique needs. This enables our clients to maintain replacement sales within the OEM market, an often untapped source of tremendous revenue and repeat business.

Our customized, proprietary lamps are unique to the germicidal lamp industry and one of the many reasons that clients have described LightSources and LightTech as companies where customer commitment is second to none. Whatever your needs are in terms of germicidal lamps, LightSources and LightTech have the solution.
